A unique and exclusive opportunity to see Antigua's sister island, Barbuda, which is a wonderful place famed for its deserted pink sand beaches, Frigate Bird Sanctuary and crystal-clear waters. It is certainly somewhere very few cruise ship passengers will or can claim to have visited in the Caribbean. Upon arrival on the jetty in Barbuda you will be transferred to an air-conditioned minibus with your local guide to be taken for a guided sightseeing tour of Barbuda. After a short drive you will arrive at Martello Tower. This tower, 32 feet high, and its fort of three guns was used as a lookout along the south coast and for sighting in-coming or wrecked ships. This information was then signaled onward to the village of Codrington, several miles north. The fort guarded the main anchorage on the south-western side of Barbuda. After driving through the small capital town – Codrington – you will board a motorboat and visit the famous Frigate birds sanctuary, located towards the north end of the lagoon in a mangrove locality. This is the largest Frigate Bird (*Fregata magnificans*) nesting gathering in the world with an estimated 1,500 Frigate Birds. At the end of the boat tour, return at the jetty in River Bay, where you can enjoy some time at the beach or return onboard.

Please note:

- The order of the visits may vary.
- Dress for the weather, wear comfortable walking shoes and bring a hat, sunscreen and water.
- If you plan to stay at the beach at the end of the tour, wear a swimsuit under your clothes and bring a towel.

DOMINICA (Cabrits) – The Indian River by rowboat

Situated in the center of the town of Portsmouth in northern Dominica, the “Indian River” owes its name to the Kalinago people, formerly known as Carib Indians, who once settled on its upper banks. The river flows from the Morne aux Diables mountain range and meanders gently through the lowlands of Portsmouth into the Caribbean Sea. Because it is below sea level, the lower parts of the river are brackish, supporting a unique ecosystem of flora and fauna. Species such as herons, kingfishers, and iguanas are often seen here and many still thrive even after the devastation caused by Hurricane Maria. The surrounding vegetation continues to flourish and regenerate.

Experienced boatmen will row you in traditional wooden boats, moving slowly to let you take in the rich wildlife and lush vegetation along the banks. You will also see filming locations from Pirates of the Caribbean.

Upriver, you will disembark for a short 10-minute stroll through botanical gardens and visit the famous Bush Bar. Try the signature “Dynamite” rum punch - a strong local specialty.

Please note:

- Rowboats accommodate up to 8 passengers. The boat ride includes a safety briefing and lasts approximately one hour round-trip.
- Dress for the weather, wear comfortable walking shoes and bring a hat, sunscreen, insect repellent, and water.
- The drive between the port and the Indian River is approximately 15 minutes. A driver-guide will accompany you on the drive; river guides will take over for the rowboat tour.

A fascinating encounter with Dominica’s Kalinago community at Touna Auté village.

The Kalinagos live in a communally owned mountain and coastal area on the northeast of the island, bounded by the stunning Pagua River. Touna Auté is surrounded by spectacular mountain gorges and is home to one of the island’s endemic parrots, the Jaco red-necked parrot. The chief of the community, a former Kalinago chief, will welcome you and provide a historical overview of the Kalinago people. You will learn about their ancestral and sustainable cultivation techniques, how cassava bread is made, and discover the secrets of medicinal plants still widely used in daily life. Weather permitting, you can also swim in the crystal-clear waters of the river pools.

You’ll also have the chance to sample local drinks and specialties and shop for traditional arts and crafts of which the Kalinago people are very proud.

Your excursion begins with a short, air-conditioned drive through the town of Portsmouth, passing the scenic Indian River, up to Syndicate National Park. This park is nestled at the foot of Dominica’s tallest mountain, Morne Diablotin, in the Northern Forest Reserve. The Sisserou has been relocated to an off-island bird sanctuary until the vegetation recovers.

After the hike, you will proceed to Milton Falls (also known as Syndicate Falls), a secluded waterfall surrounded by lush forest. Watch the water plunge powerfully into the natural pool below, where you will have the opportunity to take a refreshing swim.

Afterwards, walk back to Syndicate Cafe for refreshments before returning to your ship in Cabrits.

The Antigua Canopy Tour is a unique eco-tour through Antigua’s lush rainforest, an unforgettable journey high above the trees. After a 30-minute drive, you will arrive at the Antigua Rainforest Company, where rangers will greet you and give a briefing session to prepare you for the excursion. The tour starts at the Old Pump House with a walk over a suspension bridge spanning a gorge to access the zip lines for your aerial journey. The topography means the excursion will mostly be above the treetops, entering and exiting via a “corridor” in the foliage at either end. In total, there are 12 zip lines, 3 aerial walkways, and 2 suspension bridges, offering a wonderful bird’s eye view of the flora and fauna and a feeling of total immersion in the forest environment.

There are short treks into the gorge and a series of connecting zip lines criss-crossing the area at canopy level. The gorge is full of fascinating plants and exotic fruit, with a definite tropical feel. The terrain features tall trees and prominent boulders.

Please note:

Take a boat to the calm crystal-clear waters surrounding the coral reef where the stingrays live. Your guide will introduce you to the rays, who are incredibly friendly, encouraging them to come to the surface so you can gently touch them and take photos. Stingrays have a barb midway down their long tails, but they only use it defensively if they feel threatened. You may want to feed them a little squid along with your guide. Stingrays do not have teeth but a vacuum-like mouth that sucks up their food. Other local marine life at the stingray enclosure may include crabs, lobster, shellfish, and starfish.
