HYDRA - Time at leisure (no shore excursions organized)

Hydra is considered the most cosmopolitan of the Greek islands and many celebrities from Greece and abroad spend their vacations here. It is beloved for its natural beauty and distinctive architecture. It owes its unique character to the impressive mansions that were built in the late 18th century for wealthy Hydriot ship-owners by architects from Venice and Genoa. The island is an irresistible mixture of old and new with bars, waterfront cafés, restaurants, and boutiques blending harmoniously with picturesque lanes and bare hills dotted with dazzling white chapels and windmills. No motor vehicles are allowed on Hydra and all transport is by boat, on foot or by donkey.

History & Culture | Unesco | Sightseeing

Your tour begins with a scenic tender ride through the caldera to Athinios harbour, where local guides and buses await to take you to the site of Akrotiri, one of the most important prehistoric settlements in the Aegean.

In the last quarter of the 17th century BC, a series of earthquakes followed by an eruption forced all the inhabitants to leave. The volcanic material covered the whole island and the city itself. These materials have protected the buildings and their contents down to the present day, just as in Pompeii.

Wonderful frescoes have been found in some of the houses, as well as many vessels and utensils of daily use.

After your guided tour of the site you will continue on and after a short drive you will arrive in Oia. With your guide you can take a short walk around the village of Oia or spend some time on your own. You will also have the opportunity to enter the workshops of the artists, meet them and talk to them. See the architecture and typical Santorinian style of houses and churches.

Return to the coach for a short drive to Fira, the attractive capital of the island built on the top of the caldera.

At the end of the tour you will have free time to explore Fira on your own and browse the shops and boutiques before you take the cable car (ticket included) to the small harbour of Skala where the tenders will take you back to the ship.

Please note:

- ✓ This walk involves moderate walking on uneven ground with some inclines and steps.
- ✓ Dress for the weather, wear comfortable walking shoes and bring a hat and water.

History & Culture | Unesco

Meet your local guide at the pier and board a coach to the medieval Old Town of Rhodes for a guided walking tour of this UNESCO World Heritage Site.

Entering through the gate of Panagia Bourgou, you will explore the main points of the town, starting with the Jewish quarter. You will pass by the Synagogue and, as you enter the centre, you will reach the Turkish quarter, today the busiest area of the city. Walking through the picturesque cobbled streets, you will pass the Suleiman Mosque, formerly the Church of the Holy Apostles, with its elegant Italian Renaissance portal.

Next, head for the Palace of the Grand Masters. Built in the 14th century in the north-west corner of the ramparts, it looks more like a fortress than a palace. It was converted into a prison by the Turks, damaged in an explosion and finally restored by the Italians. It is built around a central courtyard paved with colourful marbles and contains magnificent Hellenistic and Roman mosaics from the neighbouring islands.

After your visit to the Palace of the Grand Masters, continue along the Knights' Street, with its medieval buildings, towers and decorated façades. In these Gothic buildings from the 15th and 16th centuries, the Knights of the Order of St. John lived according to their mother tongue. The street ends in Hospital Square. At the end of your tour, you will have some free time to explore the Old Town before boarding the coach for the return journey to the harbour.

Please note:

- ✓ This tour involves a lot of walking and standing over cobbles and uneven ground, with some steps.
- ✓ Dress for the weather, wear comfortable walking shoes and bring a hat and water.

From the top of the Acropolis you can also enjoy a breathtaking view of St Paul's Bay, where the apostle is said to have landed in 51 A.D. to preach Christianity to the Rhodians.

Sightseeing | History & Culture

On arrival in Bodrum, guests are taken by minibus for a 15-minute drive to the Bodrum Underwater Archaeological Museum, which is housed in Bodrum Castle. The Knights of St John of Rhodes built the castle in honour of St Peter (1415-1437), using some of the marble from the Mausoleum of Halicarnassus, which was destroyed by an earthquake in the 14th century. There are five main towers in the castle, reflecting the architectural styles of the nations that built them: the English, French, Spanish, Italian and German. The museum collections are housed in the towers.

After visiting the castle, you will take a beautiful scenic drive around the peninsula and see the Myndos Gate of ancient Halicarnassus (Bodrum Peninsula), which dates back to 364 BC, and the 7 km long city wall that surrounded the city from the west side of the harbour to Göktepe. You will then proceed to the Mausoleum of Halicarnassus. The Mausoleum was built between 353 and 350 BC for Mausolus, a satrap in the Persian Empire, and Artemisia II of Caria, who was both his wife and sister. The Mausoleum was considered one of the Seven Wonders of the Ancient World. The last visit before returning to the pier is to the Theatre of Halicarnassus, which is situated on the slope of a hill and offers a panoramic view of the harbour and the castle. After visiting the theatre, the guides will give you some information about the town of Bodrum and how to get back to the boat, and you will be free to explore on your own, have lunch in the town and do some souvenir shopping.

Please note:

- ✓ This tour involves moderate walking on cobbled and uneven surfaces with some inclines and steps to negotiate.

Day 1 - Alexandria to Cairo

When you disembark from the ship in Alexandria, you will be met and set off on the three-hour drive to Cairo.

Once you arrive in Cairo, you can immerse yourself in over 5,000 years of Egyptian history by visiting the Grand Egyptian Museum (GEM), which is the world's largest archaeological museum. This architectural marvel houses over 100,000 artefacts, including the complete burial collection of King Tutankhamun. Marvel at colossal statues and intricate carvings, and explore exhibits that celebrate Egypt's rich heritage in a sustainable and respectful manner. The GEM promises an extraordinary, immersive journey through the ages.

Spend the night at the five-star Mena House Giza hotel in Cairo.

Upon arrival, you can check in, freshen up, and enjoy a delightful dinner at the hotel before settling in for the night and preparing for another incredible day of exploration the following day.

Day 2 - Cairo to Port Said.

After a buffet early breakfast at the hotel, you will check out and depart for the visit of the Pyramids of Giza, which are considered the most famous of Egypt's attractions and the only monuments left of the ancient wonders.

The three main Pyramids at Giza were built as tombs by Cheops, his son Chephren, and Chephren's son Mykiernus to preserve each of the pharaohs' mummified bodies for eternity.

For centuries, these unique structures have intrigued the world while surviving the rise and fall of great dynasties. Southeast of the great Pyramid stands the Sphinx carved out of solid rock around 2650 BC.

Following the Pyramids visit, there will be a quick shopping stop and will continue the tour to Sakkara

The Step Pyramid of Sakkara, that overlooks Zoser's mortuary complex. Dating from 2700 BC, the Step Pyramid is the oldest stone structure in the world and was designed by Imhotep for King Djoser. In addition to Djoser's Step Pyramid, there are another 16 pyramids on the site in various states of preservation or decay.

Sakkara is also home to an impressive number of mastaba tombs. Because the necropolis was lost beneath the sands for much of the past two millennia, many of the mastaba tombs have been superbly preserved, with both their structures and lavish internal decorations intact.

Lunch will be served at one of the deluxe restaurants.

After lunch, visit the Citadel and Mohamed Ali Mosque. It is also referred to as the Alabaster Mosque due to the extensive use of that stone on some of the exterior walls and other surfaces.

The mosque, the largest such structure built during the first half of the 19th century, is more impressive at a distance than close-up. Though its artistic merit is questionable, the mosque is an unparalleled contribution to the Cairo skyline. Situated on the summit of the Citadel high atop the Citadel grounds, its great dome and towering minarets are the first features that catch your eye at the fortress.

Finally, a three-hour drive will take you to Port Said and your awaiting ship.

PORT SAID – The new Suez Canal Museum in Ismailia

*Min 20 / Max 40

History & Culture

You head for Ismailia, a modern city contrasting with the ancestral culture of the rest of the country. The city, known for its lush gardens and palm-lined avenues, has a peaceful, welcoming atmosphere. You will visit here the new Suez Canal Museum. For more than a century and a half, the first administrative headquarters of the Suez Canal Company in Ismailia has been a testimony to artistic excellence. Considered an architectural masterpiece for its magnificent design, the historic building was constructed by the French between 1862 and 1869, following a decision by the famous diplomat Ferdinand de Lesseps. It combines both Arabic, Islamic and European architectural styles, as it is made up of a rectangular space with a large central patio overlooking the building units, which are divided into more than a hundred rooms. The Suez Canal Authority decided to transform this ancient historical building into a universal canal museum in order to immortalise and revive the history of the canal in 2024. The museum includes historical collections and up to 2,000 artefacts displayed in 12 exhibition halls, telling the story of the canal from its excavation to the present day.

Please note:

- ✓ This tour involves approximately 60 minutes of moderate walking during the visit of the Museum.
- ✓ Dress for the weather, wear comfortable walking shoes and bring a hat and water.
- ✓ The journey between Port Said and Ismailia takes approximately 1:15 (each way).

SUEZ CANAL TRANSIT

Going through the Suez Canal is an incredible journey that connects the Mediterranean Sea with the Red Sea, creating a direct route between Europe and Asia. The canal is one of the world's most significant and busiest maritime passages, cutting down travel time by avoiding the lengthy trip around Africa's Cape of Good Hope.

As ships move through the canal, they pass between vast stretches of desert, flanked by sandy banks and occasional palm trees, with a unique, almost surreal landscape. For many mariners, it's both a breathtaking experience and a reminder of how this engineering marvel transformed global trade.
