Minimum 15 participants, maximum 30

This excursion is suitable for experienced hikers

Euros 44

You will take the tender boat to Portofino pier where your guide will be waiting, before hopping on to the public ferry service to San Fruttuoso. During the trip your guide will tell you a bit about the area and the natural environment while you enjoy stunning views of the promontory.

San Fruttuoso, also known as San Fruttuoso di Camogli is a little jewel situated on a pristine bay between Portofino and Camogli. While scarcely more than a blip on the mountainous coastline, San Fruttuoso boasts a Benedictine monastery situated right on the beach and accessible only by foot or by sea. This fine 10th century abbey is dedicated to Saint Fruttuoso, a Catalan bishop martyred by the Roman emperor Valerian and burned at the stake. According to tradition Saint Fruttuoso appeared in a dream to five monks and told them where to bury his mortal remains and to this day his ashes are kept inside the church as a precious relic. The other attraction of San Fruttuoso, apart from the spectacular views and limpid blue sea, is the statue of "Christ of the Abyss". A wonderful bronze statue of Jesus Christ, arms outstretched in blessing. The statue was submerged in the Mediterranean Sea at a depth of 56ft (17 m) near the spot where Dario Gonzatti, the first Italian to use SCUBA gear, died in a diving accident in 1947. It has become a place of pilgrimage for divers from all over the world.

Before starting on the trek, you will have time to admire the abbey (from the outside) and will learn about the history of the village and its monastery.

The trek route goes through the National park, a nature conservation area. A dirt track climbs up the promontory through a shady forest of Holm oaks. At a height of approximately 250m the trail levels off offering fantastic views of the plunging cliffs and deep

blue Mediterranean Sea. The vegetation is a mixture of evergreen Mediterranean shrubs and bushes and aromatic herbs. Flanking the southern slope of the promontory, the level trail ends just above Portofino. Don't forget your cameras because the trek offers some spectacular photo opportunities. The descent to Portofino is paved and overlooks the east side of the promontory and the beautiful Gulf of Tigullio.

- The ferry boat ride takes 30 minutes.
- The hike from San Fruttuoso to Portofino takes 2h30 but depends on the group's pace.
- The hike includes a number of steep ascents and descents.
- The start of the trail is very steep : from sea level to 250m in 40 minutes.

Visit and Wine Tasting at the Cantine Antinori

Transport by air-conditioned motor coach

Minimum 20 participants, maximum 35

Duration: 4h/4hh30

Euros 99

The Mortelle estate is located in the Tuscan Maremma near Castiglione della Pescaia. The current owners have had the estate since 1999, but the family association with wine making goes back much further than that. Indeed, the Antinori family have been producing quality wines for 26 generations and over 6 centuries; ever since Giovanni di Pieri Antinori became a member of the Florentine wine producers guild, the “Arte Fiorentina” in 1385.

The family has a wealth of experience and an almost unique background in wine production. They bought the estate because they are convinced that the area, which is gaining prominence on the Italian wine scene, has enormous potential and is ideally suited to the production of quality wines which express the region’s specificity.

The mortelle estate, named after the wild myrtle that grows there in abundance (mortella), extends over 270 ha. 160 of which are planted with grape vines, chiefly Cabernet sauvignon and Sangiovese, as well as the recent additions of Vermentino, Ansonica and Viognier.

A brand new winery was created on top of a hill overlooking the estate. This is where the various stages of wine production take place, vinification, storage and ageing of the wines in barrels in the basement wine cellars.

At the end of the tour you will be dropped at Castiglione della Pescaia a former fishing village, nestling in greenery, which boasts a picturesque harbour. At a short distance, perched on a spur of Monte Pettriccio, you can see the historical old town with its medieval fortified walls, towers and gates surrounding a 15th century castle. The bus will drop you off near the centre of Castiglione Pescaia and from there it is a short walk to the historical quarter.

- The drive to/from Porto Ercole takes one hour.

BASTIA

Corsican Legends

On foot

Minimum 20 participants, maximum 30

Duration: 2h30

Euros 42

Bastia was founded by the Genoese in 1380, when they were looking for a naturally sheltered Port to replace the ancient Roman city of Mariana and Biguglia (which had been destroyed by the Corsicans in 1372). The Genoese needed a city and port which could assure the contact between their “Homeland” and their “colony”. Even if this small port was swept by terrible libeccio winds, it was protected by a rock, easily defendable, and upon which a dungeon (or bastiglia) was built- and hence the name of the town BASTIA.

The numerous religious buildings dotted all over the island bear witness to the profound religious fervour of its inhabitants and their attachment to the Catholic faith. Despite this, the collective consciousness remains steeped in many pagan traditions, relics of ancient beliefs.

The mystical spirit of Corsica finds its true expression during the great Christian festivals, however the barrier between the natural and supernatural world is extremely permeable and Corsica is teeming with visionaries, faith healers, and mediums.

This walking tour will take you to some purportedly haunted sites, and give you an overview of the superstitions and local legends which still hold sway.

Your walking tour will end at the citadel where you will enjoy some typical refreshments

- You will have a guided tour of the winery and a wine tasting of three different wines, for example : Vivia (Vermentino/Viognier/Ansonica, Betrosecco (Cabernet Sauvignon/ Cabernet Franc), Poggio alle Nane (Cabernet Franc/ Cabernet Sauvignon)

“Napoleon’s Tour”**By air-conditioned motor coach****Minimum 20 participants, maximum 40****Duration: 4 hours****Euros 66**

The tour begins with a panoramic drive through the hinterland to Napoleon’s summer residence. The Villa San Martino is located in a pleasant valley planted with vineyards, a setting of lush vegetation, far from the bustle and heat of Portoferraio.

The Emperor converted a small country house into a fine private villa. The Neo-Classical building at the entrance of the property is the Demidoff Gallery, built in 1851 by Count Anatolio Demidoff. Demidoff was a fervent admirer of the Emperor, and his wife, Princess Mathilda, was Napoleon’s niece. The building was used to house Demidoff’s collection of Napoleonic Memorabilia.

The villa San Martino is situated on a terrace above the Demidoff gallery and consists of eight rooms. Three rooms were occupied by Napoleon himself, three others were for his officers and the remaining two: the “2 colombes” council chamber and the Egyptian room were used for meetings and receptions.

On the way back there will be a stop at Porto Azzurro where you will have some time to stroll along the streets of this charming town, dominated by an ancient Spanish fortress. The town also boasts a picturesque fishing harbour and numerous shops selling crystals and minerals.

There will also be a stop at “La Chiusa” an old country wine estate, nestling in a vineyard overlooking the ocean. The estate dates from the 1700’s, and includes a country house, wine cellar and miniature chapel. The owner’s house with the exterior double staircase was built later during the 1800s. “La Chiusa” hosted Napoleon Bonaparte on two separate occasions: once on May 3rd 1814 on his arrival in Elba, while waiting to be officially welcomed to Portoferraio, and another time during a hunting party on Mount Fabbrello.

Here you will get the opportunity to sample some local specialities and a selection of three different wines.

- On Tuesdays the villa dei Mulini is closed, so you will visit the Villa San Martino
- This tour is not operated on Sundays afternoon.

PALOMBIAGGIA

To the south of Porto Vecchio lies the Palombaggia peninsula which offers the visitor no less than six incredible beaches. Umbrella pines provide shade and frame long stretches of white sandy beaches and glistening blue water, punctuated with jagged rock formations of pink granite shaped by the elements. The beaches have a grandstand view of the Archipelago of Cerbicale, uninhabited rocky islets which are now a nature reserve providing sanctuary to Crested Cormorants and other protected species who come to nest there. The combination of sand dunes, pine trees and red rocks is quite amazing, and it is no wonder that Palombaggia is considered by many to one of the finest beaches in Europe.

BONIFACIO

Sartène the Oldest Corsican Village**By air-conditioned motor coach****Minimum 20 participants, maximum 40****Duration: 4h30****Euros 59**

Coastal Boat Trip**Guided tour**

Transport : on foot to the marina and then by boat

Minimum 20 participants, maximum 40

Duration 1h30 including the walk to/from the ship

Euros 44

A Specially chartered boat will pick you up at the pier. After climbing aboard, you will set off on your coastal exploration trip, leaving the harbour through a narrow channel between the towering cliffs of Bonifacio. The boat will pass by the « Madonetta » lighthouse, built in 1854, before entering the Sdragnato or « Little Dragon » marine cave. There is a long fissure in the roof of the cave through which you can see the sky, and the outline of this natural skylight is strangely reminiscent of the shape of Corsica. Sunlight filters through the crack and illuminates the underwater rocks creating a magical play of light with a wonderful display of colours ; an awe inspiring moment of natural beauty. The tour continues on to « Fazio Creek » and then, following the cliff in a south easterly direction you will pass by the rock known as the « Rudder of Corsica », as well as the King of Aragon's staircase. According to legend the steps were carved by the Aragonese in a single night in 1420 to facilitate a surprise attack on the inhabitants during the siege of Bonifacio. However they actually predate this event and had a much more mundane function, enabling locals to carry water up to the citadel.

The last highlight of the tour is the « Grain of Sand » rock, a large isolated rock, shaped by erosion, which stands in about 10m of sea. This picturesque site will have you reaching for your camera, as it provides the perfect background for a photo souvenir.

- If the sea is too rough the itinerary may be modified for your comfort.
- The boat is chartered exclusively for Star Clippers' passengers.
- There is a 15 minute walk to the marina.

Siena**By motor coach and on foot****Minimum 20 participants, no maximum****Duration: 8h30****Euros 119****Lunch not included**

NOTES

You will be met on the pier by a tour escort who will accompany you on the pleasant drive to Siena where a local guide will be waiting to show you the sights of this magnificent medieval city.

The town is built around the famous Piazza del Campo surrounded by a 7km fortified wall erected between the 14th and 16th centuries. Siena, a UNESCO world heritage site since 1995 is famed for the PALIO a traditional bareback horse race. The competitors in the race are all from different "contrade" or districts and wear medieval costumes representing their neighbourhood. Feelings run high and there is a lot of local rivalry going on with jockeys (known as "fantini") not only striving to win the race but also trying to prevent riders from enemy neighbourhoods from making any headway.

Together with your guide you will stroll down narrow streets leading off from the main square and get the chance to admire the many historical monuments and artistic masterpieces which adorn this city. The beautiful "duomo" or cathedral is a veritable treasure trove containing statues by Michelangelo, Donatello and Bernini. Adjoining the cathedral is the Piccolomini library, decorated with colourful frescoes, which houses a collection of precious illuminated choir books. Three other sites well worth visiting are located around the cathedral, the Crypt which lay hidden for 700 years before being discovered in 1999, the stunning baptistery with its hexagonal font made by Donatello and the Opera museum, which contains many original masterpieces taken from the cathedral. Your visit will end with a panoramic view of the cathedral, city rooftops and Tuscan countryside from the top of the Facciatone wall.

- The drive to Siena takes 2 hours.
- Casual wear and comfortable shoes are recommended. However no shorts or revealing clothing will be allowed in the cathedral: ladies must cover their knees and shoulders, while gentlemen must wear trousers or jeans.
